

VET Work Placement Procedure

Section 1 - Introduction

(1) Work placement is any structured, assessable workplace learning that prepares students for the workforce. It is generally linked to specific units of competency within a program of study.

(2) The experience in the workplace:

- a. helps students link knowledge and skills with jobs;
- b. helps students to better understand theory they have learnt by putting it into practice;
- c. gives the students hands-on experience in the workplace; and
- d. is an assessable part of the student's course.

(3) Work Placement is different from work experience. Instead of just observing what goes on, students are given the opportunity to undertake practical tasks to demonstrate skills related to their program under the supervision of a workplace supervisor.

(4) Work placement is facilitated by the unit lecturer. The staff member undertakes a review of the workplace to have confidence the workplace is suitable for the work placement (e.g. meeting work health and safety requirements, and able to provide the practical training required) and negotiate mutually agreeable placement arrangements.

Section 2 - Compliance

(5) This is a compliance requirement under the:

- a. [Education Services for Overseas Students Act 2000](#);
- b. [National Code of Practice for Providers of Education and Training to Overseas Students 2018](#); and
- c. [Standards for Registered Training Organisations \(RTOs\) 2015](#).

Section 3 - Intent

(6) This procedure details how to plan, schedule, facilitate, and assess students who undertake work placement.
