Section 4 - Policy Principles

Conflict of Interest

(6) Members of the University Community must avoid, mitigate and declare all conflicts of interest.

(7) A conflict of interest occurs when the private interests of a member of the University community may influence, compromise or conflict, or be seen to influence, compromise or conflict with their conduct in relation to their activities at the University.

(8) A conflict of interest occurs when a member of the University community is being influenced by a third or foreign party to act in the interests of that party.

- b. potential conflicts arise when a person working for or with the University has other interests, which may influence their ability to act in the University's best interests in the future; and
